Catrix: customise your own scratching post

Catrix is a new revolutionary modular scratching post system with lots of expansion possibilities. Now you are able to create and build your own scratching post models; the range of variations is endless! Catrix is a must for every creative cat lover; it's fun, exciting, easy to handle and goes beyond your imagination. It's a unique concept!

All you need is a Catrix modular starterset. It's extremely easy-to-build without any tools. No screws, no glue, just simply push the parts together and it's ready to use. That's all! There are three different starterset models available to choose from. Each model can be used as a base for your new design. The startersets are very easy to expand into any kind of other design thanks to the individually available Catrix expansion parts. This way you are able to create any scratching furniture you like. The expansion parts are designed to meet all your cat's needs like scratching, sleeping and playing.

You think you may not be creative enough? No problem! Each starterset box contains a leaflet with several expansion ideas based on the specific starterset. The leaflet clearly states which
